

FINAL STATEMENT OF REASONS

1) The Update to the Initial Statement of Reasons

There are no changes to the initial statement of reasons, which is hereby incorporated by reference.

Section 423.00(a)(5)(C)

This subdivision which identifies by statute those fees that will increase to eighteen dollars included a fee, Vehicle Code section 9250.8(a), that was also identified in subdivision 423.00 (a)(5)(B). This fee was incorrectly included in this subdivision and was deleted in the final regulatory language.

2) Imposition of Mandate on Local Agencies or School Districts

The department's regulatory action amending Section 423.00 in Article 6.0, Chapter 1, Division 1, Title 13, California Code of Regulations, does not impose any mandate on local agencies or school districts and imposes (1) no cost or savings to any state agency, (2) no cost to any local agency or school district that is required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4 of the Government Code, (3) no other nondiscretionary cost or savings to local agencies, and (4) no costs or savings in federal funding to the state. No studies or data were relied upon to make this determination. The regulatory action identifies the fees under annual review and adjustment pursuant to Vehicle Code section 1678. The proposed increases in the thirty-seven (37) fees reflect the increase in the California Consumer Price Index as calculated by the Department of Finance. See Attachment A in Exhibit J for the specific calculation for each fee.

3) Summary of Comments Received and Department Response

The proposal was noticed on May 23, 2008, and made available to the public from May 23, 2008 through July 7, 2008. No comments were received on the regulatory proposal.

4) Determination of Alternatives

No reasonable alternative considered by the department, or that has otherwise been identified and brought to the attention of the department, would be more effective in carrying out the purpose for which these regulations are proposed or would be as effective and less burdensome to affected private persons than the proposed regulations. During the rulemaking process, no alternative that would lessen the adverse economic impact on small business was submitted.
